**AIR&WATER**  
SOLUTIONS

INTRODUCING A FULL RESIDENTIAL HVAC LINE THAT'S

# PROCENTRIC

GE Appliances' residential HVAC equipment is designed with the HVAC pro front and center. This full line of unitary HVAC products with the GE name is a promise of quality, durability, performance — and, above all, our commitment to you, the pro.

## PRODUCTIVE

Exclusive features make installation faster and you more **PRO**ductive

## PROACTIVE

You'll get **PRO**active support from great people and groundbreaking technology

## PROMOTION

An iconic brand trusted in 50% of U.S. households is easy for you to **PRO**mote

## PROVIDE

We **PRO**vide a full lineup of residential ducted HVAC products

# A BRAND LIKE **NO OTHER**

GE Appliances' roots run deep — we've got a long history of making top-of-the-line appliances that pros recommend and homeowners trust. That legacy continues with the introduction of our full line of residential HVAC built with the HVAC professional in mind.

PROcentric means helping you win at the kitchen table, with a brand that is trusted in 50 percent of US homes.\* That kind of equity is invaluable to homeowners who know our reputation for quality, reliability, and innovation.

\*Based on major appliances; does not include HVAC products.

# THE PRO'S PARTNER

At GE Appliances, there are more than 650 professionals providing Air and Water Solutions across the US and Canada who stand behind what we sell, and stand with you.

We are committed to providing not only a full line of residential HVAC, but a full portfolio of air and water products to serve you and your customers across the home.

# CONFIDENCE X3

## TRAINING

Our dedicated HVAC training team is here to provide a full curriculum to help you learn the ins and outs of our product. Through GE Appliances' Air & Water Solutions Learning Academy, you'll be able to learn about products across our portfolio and stay up to date on your HVAC knowledge.

## WARRANTY

Most service parts are available for next-day shipment or already available at your local distributor. And with our flexible warranty policy, many can be scrapped at the time of replacement without having to wait for credit.

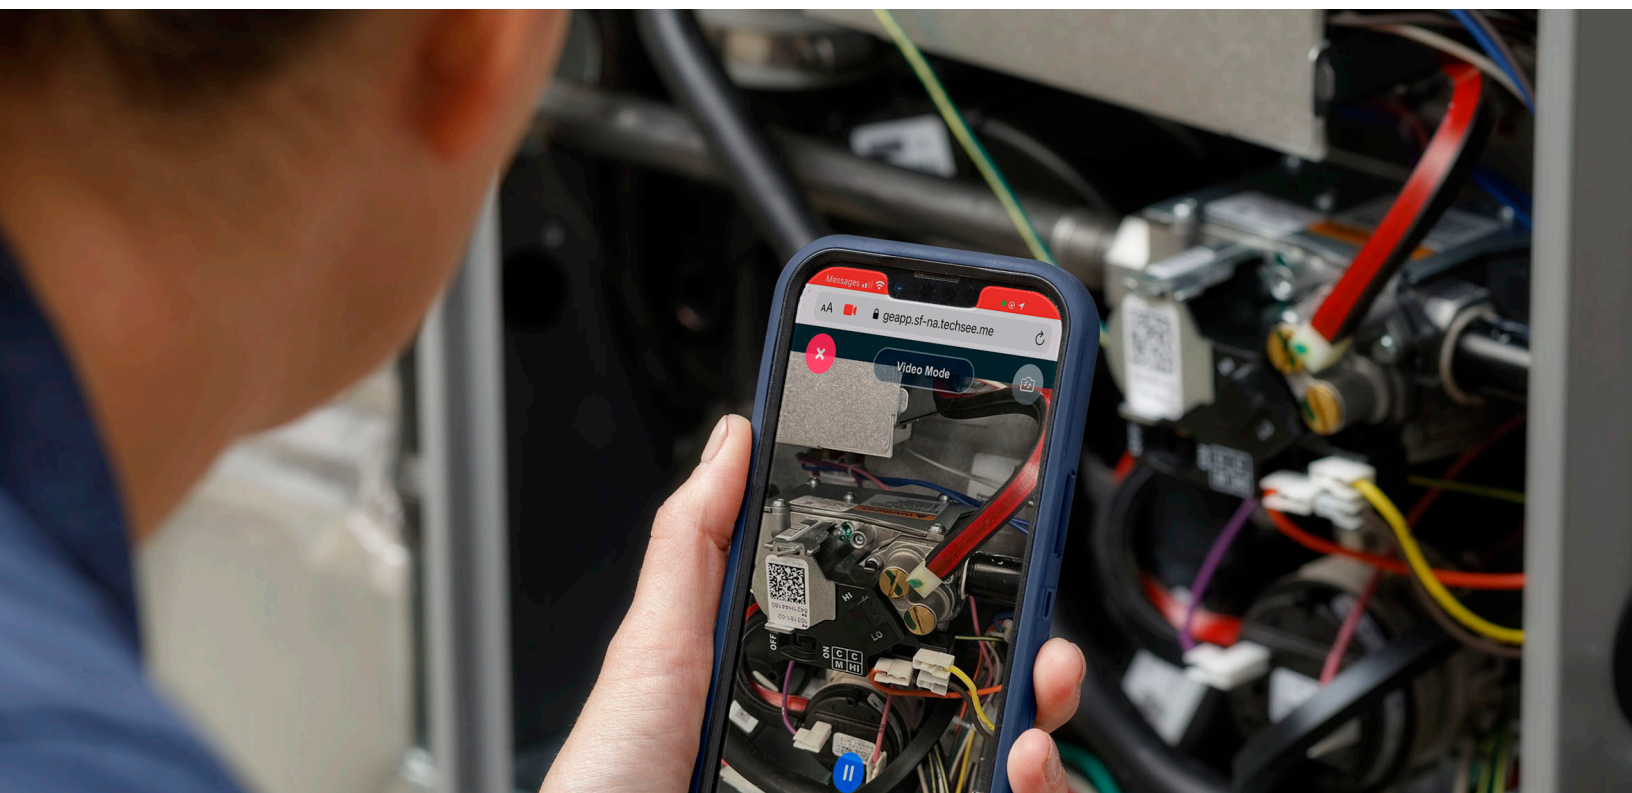

## SUPPORT

### PEOPLE

Our full team of HVAC experts support the product and pros like you in the field. From leaders who have real-world field experience to specially trained front-line call-takers, we've got a team of experts to provide exactly the level of support you deserve.

### TECHNOLOGY

With our visual support system, our experts can join you in the field, virtually! Our system lets contractors transmit video and still images of technical issues via the web on a tablet or smartphone, to our experts for quick solutions — no app download required.

# A PROCENTRIC PRODUCT LINE

Our residential HVAC units are built to the rigorous GE Appliances standard. They've been tested to meet our rigorous safety and quality requirements and are designed for every setting — from the coasts of Florida to cold climates in Canada, including areas where energy requirements are stringent. They're built with features homeowners will love — ensuring performance, comfort, and durability.

## AIR CONDITIONERS & HEAT PUMPS

### AIR CONDITIONERS

#### SPECIFICATIONS

- 16 and 17 SEER single-stage
- 18 SEER two-stage
- 23 SEER inverter
- Aluminum alloy tube and fin coil technology
- All models compatible with standard TXVs
- High-pressure switches on all AC models (low on select models)

#### Aluminum Alloy Tube and Fin Coils

Our coils have been tested under extreme climate conditions and subjected to 500 hours of salt spray, so you know they'll perform in any environment.

#### Durable, 45-Degree Service Valves

45-degree service valves on our A/C units and heat pumps make for easy access to your service tools.

#### 24V Thermostat Compatible

Have the flexibility to choose any type of thermostat with logic controlled in the equipment's control boards. No expensive, proprietary controls required!

### HEAT PUMPS

#### SPECIFICATIONS

- 17 SEER single-stage
- 18 and 22 SEER inverter
- Aluminum alloy tube and fin coil technology
- All models compatible with standard TXVs
- High-pressure and low-pressure switches on all models

## AIR HANDLERS

#### SPECIFICATIONS

- PSC, ECM, and Variable Speed options available
- One-piece and two-piece versions available
- Aluminum alloy tube and fin coils

#### Designed for Application Flexibility

Multiple motor efficiencies with one-piece and two-piece options available. All models are 4-way multi-position compatible.

## FURNACES

### 80% AFUE GAS FURNACES

#### SPECIFICATIONS

- Single-stage and two-stage models with fixed and variable speed motor options
- Flanges designed to fit perfectly
- Small burners, mini-clamshell HX designed for quiet operation
- Lifetime heat exchanger warranty
- Low-NOx (LN) and Ultra-Low-NOx (ULN) models available

#### Insta-Position Technology

When a tight crawl space or attic call for a horizontal furnace, eliminate the hassle of shifting components and save time during install with furnaces that ship ready for install in multiple positions with no internal conversions.

#### Better Fit

At 33 inches tall, GE Appliances furnaces fit into more spaces and more homes, while taking up less space wherever they're installed — because even one inch can make the difference between a successful install and a headache.

#### Pre-Formed Flanges

Our coils are designed for a frustration-free installation with flanges designed to fit matching evaporator coils perfectly, reducing time and the possibility of damage.

### 90% AFUE GAS FURNACES

#### SPECIFICATIONS

- Single-stage, two-stage, and modulating units with fixed and variable speed motor options
- Flanges designed to fit perfectly
- Small burners, mini-clamshell HX designed for quiet operation
- Lifetime heat exchanger warranty
- Ultra-Low-NOx (ULN) models available

## PACKAGED UNITS

#### SPECIFICATIONS

- Gas, heat pump, and straight AC options available
- Single-stage 14 SEER and 2-stage 16 SEER options in gas and heat pump
- Single-stage 14 SEER air conditioner
- Horizontal install ready; downflow convertible
- 0" installation clearance
- 48" max width

#### Designed with Contractors in Mind

Units are designed to provide flexibility for pros during service and install, while giving homeowners high efficiency options to choose from.
